Checklist of Prerequisites

Contact the manufacturer for any questions regarding how to use their system including the steps to retrieve a patient listing.

for iOC/iTero systems

for other systems

- Obtain a username and password for MyAligntech.com account.
- Upgrade to OrthoCAD 3.5 or higher.
- Retrieve list from MyAligntech.com showing a minimum of 10 finished scans (protect patient privacy per HIPAA).
On MyAligntech.com, go to Home > Orders > Orders List.
- Submit this completed form and your list of 10 scans

- Order supply of opaque solution, such as SureWhite.
- Retrieve list showing a minimum of 10 finished scans (protect patient privacy per HIPAA).
TRIOS TIP: From OrthoAnalyzer, click the Models menu and select Patient model set. Under the TRIOS tab, select orders.
- Submit this completed form and your list of 10 scans

Email: customercare@suresmile.com or Fax: 1.972.728.5601.

NOTE: Your site will be activated to allow Therapeutic STL/PLY scans once all requirements have been met. Your Account Manager will schedule a follow-up office visit to assist/train the staff on the scanning techniques needed to capture sufficient bracket coverage.
